

Thank you to all who attended
Our Spring 2008 meeting!
Here are the comments!

A wonderful group of people! Their concern for each other is really appreciated. The doctors are sincere, patient with questions, and extremely supportive of each other and those who came. God Bless them all!

Great Meeting! Good mix of veterans and newbies despite the smaller group tonight. Nice job facilitating, Dr. Dmochowski! Great job, Barb!

I felt this meeting was very informative.
I definitely learned a great deal from the doctors and the people attending the meeting.

Can we have the meetings on the West Side of the city occasionally? Webster is about a 45 minute drive—really far with gas as high as it is!

This was my first time attending this meeting and I was very impressed. I have had no problems for 15 years, but I learned a lot tonight.

I enjoyed helping new people to the Support Group, answer their questions and hopefully make them feel a little more at ease about their medical condition.
