

Thank you to all who attended
Our 2007 meetings!
Here are the outstanding comments

The meeting was great! It was very much appreciated and always is.
Great interaction within the group!

Very informative!

It was a good support mechanism. I would have liked to have had more of a formal presentation and success/or failure story.

Very informative session!
Much better than all technical information.
Snacks and drinks were very good!

Very unfortunate that I haven't been to a session in a while, but I am glad I came! ☺

To save some time, maybe we could have a brief bio on the doctors written out,
rather than an oral talk.

This was a fun meeting—a good range of topics and good conversation.
Thanks for the work you put into these meetings!

Another great meeting last night! I enjoy going to them and hearing other fellow J-pouchers' comments and suggestions. It's also nice to interact with people thinking about the surgery and fill them in on our experiences. Unless you have gone through it, you have no idea what to expect. One thing for sure is that I am so happy to have had it done and only wish I had it done sooner.

I tell everyone about my experience because it was the great care you and your office gave me!

Great group! Enjoyed the discussion and Q/A! Keep up the good work!

Even the "veterans" can learn something new!

Great meeting, as always! I would like to see more prospective patients attend.

Very helpful, thank you!

Great support group! Lots of useful info shared!

The best part is still listening to everyone's stories and seeing others have had the same problems. You don't feel so alone when you leave these meetings!

None of us could do this without the support of the doctors and office support!

As usual, of benefit to all! Still learn every time!

This was very informative. I am very happy that we came. Everyone was very informative/helpful and wiling to talk. Thank you!

Great Job! Very helpful! Great to hear the people's comments!

This was great! I enjoy the emotional support. I would welcome anyone to call me personally to ask for help or support!

Good meeting! It would be nice to see Dr. O'Neill, though I know she is busy!

Informative and spontaneous discussion—I enjoyed the meeting!
